

Wine Train

Situated in Yeongdong (Chungcheongbuk-do), Wine Korea is the only winery in Korea that maintains a vineyard and produces the wine brand, Chateau Mani. Beginning in November 2006, Wine Train run by Wine Korea offers a one-day train tour between Seoul and Yeongdong. Departing from Seoul Station, its passenger cars, themed Red/White Wine or Ginseng, boast an elegant café atmosphere. Above all, visitors can enjoy as much of the wine produced in Yeongdong as they want.

Upon arriving at Yeongdong, visitors head to Wine Korea, enjoy foot massages in wine, participate in making natural cosmetics, and tour the wine production facilities.

Full of the sweet scent of wine, song, and joyful conversation: At 9:25 a.m., the train slowly pulls of the station, gearing up to take its passenger on an unforgettable journey. During the three hours it takes to get to Yeongdong, cheerful music fills the cars as entertainers croon along to the strumming of their acoustic guitars. Of course, the trip to Yeongdong is also the perfect time to begin your day of free sampling! Try the Sample Nouveau Wine, Dry Wine and Sweet Wine along with all-you-can-eat snacks such as bread, fruit and nuts. There is also a brief lecture on how to taste wine, perfect for those who may be new to try this simple pleasure. The trip to Yenondong is the ideal time for you to lounge in your seat slowly sipping wine, gaze at the beauty of the passing scenery, and truly take a moment to savor the experience.

Wine Foot Spa: It's time to reward yourself for all your hard work, so take the towel and slippers provided and go to the next room for your footbath. The grape-colored water is a toasty 38°C. Soak your feet and let your cares ebb away to the quiet chatter of your new friends and neighbors who were strangers just hours ago.

Take a look around Wine Gallery and Oak Cellar The Wine Gallery is the perfect opportunity to learn how our little friend the grape becomes the savory drink we know and love. On display are a variety of wines produced by Wine Korea (each with their specially-designed label), as well as a number of displays that make helps visitors better understand this fascinating industry. Wine Korea staff members provide detailed information on the wine-making process and explain the functions of the various visual displays. You can even visit the underground oak ripening cellar where wine stays briefly before it is bottled.
